## THIRD-PARTY QUALITY INSPECTION

UNBIASED AND  
INDEPENDENT  
THIRD-PARTY  
QUALITY  
ASSURANCE

**metro** | SERVICES

## WHAT IS 3PQI?

Metro is your one-stop shop for 3PQI services. We provide unbiased and independent third-party containment and inspection of manufactured parts without compromising the interests of the manufacturer or the end buyer.

## HOW IT WORKS

We work with the Quality Department and the Engineering Department to quarantine all necessary manufactured parts for our Quality Inspectors to conduct their inspections.

## HOW IT IS DONE

We do this through the following:

- 24 x 7 management availability
- Actionable data and communication
- Parts Presentation
- Containment Process
- Parts Identification
- Intense training and sorting processes
- Tracking Services

## BENEFITS FOR YOU

There are many benefits to working with our staffing company:

- Response and reaction within 48 hours
- Customized process
- Experienced travel teams
- On-Site Supervisor to inspect ever-changing criteria
- Single point of contact
- Robust containment work instructions developed in collaboration with the Quality Department
- Multi-level inspection process
- Audits of inspected parts before release from containment

## WE SPECIALIZE IN THE FOLLOWING:

- Interiors (Plastic, Finished parts, Headliners, etc.)
- Axles, Gears, Mechanical Parts
- Molded Parts
- Castings
- Sheet Metal Stampings
- Rubber and Moldings
- Engines and Transmissions
- Wire Harnesses
- Leather and Trim
- Weld Assemblies
